

Your mom always told you to take good care of your stuff

Right as usual. Regular maintenance keeps your car running smooth and keeps the air clean.

Your mom's advice still holds true today, especially when it comes to your car. Regular tune-ups, changing the oil and checking tire inflation can improve gas mileage, extend your car's life and increase its resale value. Plus, regular maintenance can reduce traffic congestion due to preventable breakdowns and could help reduce your car's emissions by more than half. So keep it up because—

It all adds up to cleaner air
